RE: Regulations of off-premise signs located along State Routes

Dear Sir or Madam:

The New York State Department of Transportation is required by the Federal Highway Administration (86 & 88 Highway Law & agreements with the Federal Government), in accordance with the Highway Beautification Law, to conduct an annual sign surveillance of certain roads that are eligible for federal aid. As the result of our annual sign surveillance, we must send several removal notices to the owner of every illegal sign found. This includes signs meant to be seen along certain State Routes, whether in the right-of-way or on private property.

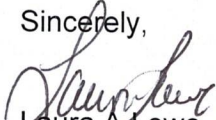

Please refer any of your residents who would like to place an advertising sign that will be visible from State Routes to me at (607) 324-8572 or Laura.Lowe@dot.ny.gov.

If it appears that they will qualify for a permit, we will send them an application. With the completed application, we require that they send written confirmation from the municipality stating that a building permit either can be issued or that one is not required to ensure that the sign will meet all local regulations.

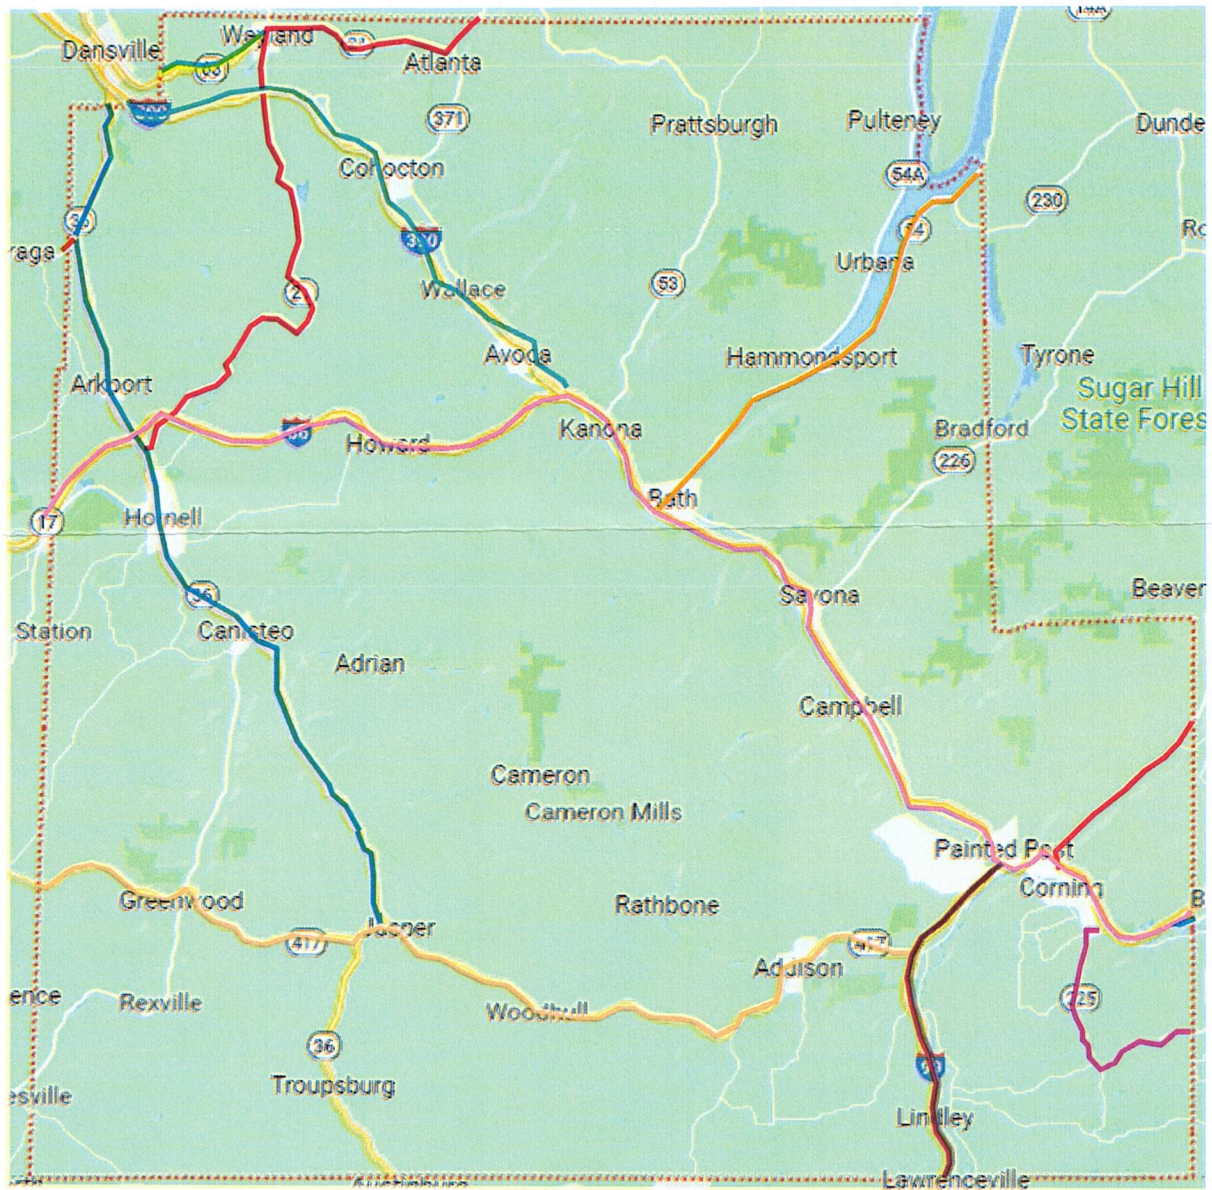

We are sending this notice annually to all of the municipalities within our region that include any roads we control signing along. Please share this information with your Zoning/Code Enforcement Officers or any other personnel that it may apply to.

Thank you in advance for your cooperation. More information can be found at www.dot.ny.gov/programs/nys-signs. Please contact me at (607)324-8572 or Laura.Lowe@dot.ny.gov if you have any questions.

Sincerely,

Laura A. Lowe, RES 1
