

Town Board Regular Meeting
Town of Hornellsville
Town Hall - 4 Park Ave, Arkport
Tuesday, August 10, 2021 7:00 PM

Present: Dan Broughton, Supervisor
Ron Kennell, Councilman – Left at 7:47 PM
James Giglio, Councilman
Robert Mauro, Councilman
David Oakes, Councilman – Arrived at 7:17 PM
Recording Secretary: Jessica LaFrance, Town Clerk
Others Present: Jason Emo, Supt of Highways

CALL TO ORDER

The Meeting was called to order at 7:02 PM by Dan Broughton, Supervisor with the pledge of allegiance.

MINUTES

Motion was made by Mauro, seconded by Kennell to accept Minutes of July 13, 2021 as submitted by the Town Clerk.

Roll Call: Broughton, Kennell, Giglio and Mauro; all ayes. Carried.

Motion was made by Kennell, seconded by Giglio to accept Minutes of July 27, 2021 Public Hearing as submitted by the Town Clerk.

Roll Call: Broughton, Kennell, Giglio and Mauro; all ayes. Carried.

AUDIT OF CLAIMS

Motion was made by Giglio, seconded by Kennell that bills contained on Abstract #8 have been reviewed by the Town Board and are authorized for payment in the amount of \$66,057.92.

Roll Call: Broughton, Kennell, Giglio and Mauro; all ayes. Carried.

TOWN CLERK REPORT

Motion was made by Mauro, seconded by Giglio to accept report read by Jessica LaFrance with fees for the month of July in the amount of \$1,610.00.

Roll Call: Broughton, Kennell, Giglio and Mauro; all ayes. Carried.

JUSTICE REPORT

Motion was made by Giglio, seconded by Mauro to accept report read by Kennell. For June, Justice Scavo collected \$5,461.00 and Justice Werner collected \$6,026.00 with distribution to the Town being \$1,884.00.

Roll Call: Broughton, Kennell, Giglio and Mauro; all ayes. Carried.

CODE ENFORCEMENT REPORT

Motion was made by Kennell, seconded by Giglio to accept report read by Mauro with the activities and mileage for the month of July, 2021 by the Codes Officer.

Roll Call: Broughton, Kennell, Giglio, Mauro and Oakes; all ayes. Carried.

PLANNING BOARD REPORT – No Report

BLDGS/INSURANCE – No Report

FINANCE – No Report

HIGHWAY REPORT

Motion was made by Kennell, seconded by Mauro to accept report read by Giglio with activities from the highway department for the month of July.

Roll Call: Broughton, Kennell, Giglio, Mauro and Oakes; all ayes. Carried.

ECONOMIC DEV/BUS. RELATIONS – No Report

PUBLIC SAFETY/FIRE DEPT

Fire Chief Mike Robbins submitted reports with activities from the North Hornell Fire Dept for the months of July and August. No action was taken.

SUPERVISOR REPORT

Motion was made by Mauro, seconded by Kennell to accept reports read by Broughton. Supervisors report submitted stated that the balance as of 05/31/21 was \$2,114,536.29. The Town had an increase of \$94,733.45 and a decrease of \$391,528.00 leaving a balance as of 06/30/21 of \$1,817,741.74. As of 06/30/21 the balance was \$1,817,741.74. The Town had an increase of \$250,762.87 and a decrease of \$271,744.76 leaving a balance as of 07/31/21 of \$1,796,759.85.

Roll Call: Kennell, Giglio, Mauro and Oakes; all ayes. Broughton; abstained. Carried.

DEPUTY SUPERVISOR REPORT – No report

COUNTY LEGISLATOR REPORT – No report

RESOLUTIONS

RESOLUTION #6-2021

Whereas, the Town Board desires to adopt a schedule of fees to include an application fee and an escrow fee for applicants seeking the issuance of building permits, site plan approval and special use permits in connection with approvals granted by the Planning Board and/or Town Board for Solar Energy Projects, and

Now, therefore, be it resolved, that the Town Board hereby adopts the following as an addition to the fee schedule for Building and Zoning permits in the Town of Hornellsville, effective immediately, and applicable to all current applications.

Schedule of Fees:

Solar Energy Systems - Application fee \$55 per 1,000 square feet of panels

Motion was made by Kennell, seconded by Oakes to accept the resolution read by Mauro.

Roll Call: Broughton, Kennell, Giglio, Mauro and Oakes; all ayes. Carried.

RESOLUTION #7-2021

WHEREAS, Debra Castle, Bookkeeper, needs approval to record budget modifications for the below funds.

WHEREAS, approval is needed for Code A1220.4 for Supervisor - Contractual in the amount of \$39.00; Code A1355.4 for Assessor – Contractual in the amount of \$26,543.07; Code A1355.41 Assessor’s BAR – Contractual in the amount of \$2,750.00; Code A1410.4 Town Clerk – Contractual in the amount of \$11.43; Code A1670.4 Central Print and Mailing – Contractual in the amount of \$1,622.31; Code A5132.2 Garage – Equipment in the amount of \$125.51; Code A9010.8 State Retirement in the amount of \$479.00 from Account A599 Appropriated Fund Balance,

BE IT RESOLVED, that the Town of Hornellsville Town Board, does hereby approve the recording of the above budget modifications.

Motion was made by Giglio, seconded by Mauro to accept the resolution read by Oakes.

Roll Call: Broughton, Kennell, Giglio, Mauro and Oakes; all ayes. Carried.

OTHER BUSINESS

The board was presented with a Road Use and Maintenance Agreement from Eight Point Wind. It’s still missing some information. No action was taken.

The board discussed having a cutoff date for when bills need to be submitted to the Town Clerk for payment. The Clerk will draft a letter explaining this to vendors so everyone can be paid in a timely fashion.

The Town will receive approximately \$245,000 from the Covid Relief Fund. Half will be received upfront. The Town Board is currently discussing options. No action was taken.

Local Law 1-2021
Amendment to Local Law 1 of 2018

WHEREAS,

The Town of Hornellsville Town Board wishes to amend Local Law 1-2018 as follows,

NOW, THEREFORE, it is hereby resolved that:

The position of tax collector in the Town of Hornellsville is hereby abolished, and it is hereby resolved that

The Town Supervisor for the Town of Hornellsville is hereby authorized to enter into agreements with financial institutions to collect property taxes on behalf of the Town of Hornellsville, and it is hereby resolved that

The Town Supervisor for the Town of Hornellsville is hereby authorized to sign contracts with said institutions in order to effectuate said agreements.

Motion was made by Giglio, seconded by Mauro to accept the Amendment.

Roll Call: Broughton, Giglio, Mauro and Oakes; all ayes. Carried.

Local Law 2-2021
Amendment to Local Law 1 of 2010

WHEREAS, the Town of Hornellsville passed Local Law No. 1 of the year 2010, and said local law having been filed with the Department of State on December 3, 2010, and

WHEREAS, the Town of Hornellsville wishes to amend the Local Law to allow people licensing dogs to buy a license for either one, two, or three years, and

WHEREAS, the Town Board for the Town of Hornellsville believes that it would be in the best interests of the citizens of the Town of Hornellsville to have the option to buy a longer term dog license.

NOW, THEREFORE, it is hereby RESOLVED that:

- 1.) Section 5(2) of said Local Law is hereby added to provide that a person licensing a dog shall have the option to purchase a multi-year dog license for one, two, or three years. It is required that a valid rabies vaccination certificate be provided upon purchase, must remain valid throughout the term purchased, and in accordance to the provisions of Article 7 of the Agriculture and Markets Law of New York State.
- 2.) Section 5(c) of said Local Law is hereby amended to read as follows: That all fees associated with licensing dogs in the Town of Hornellsville shall be reviewed periodically by members of the Town Board and changed when necessary.
- 3.) All other language contained within said section is hereby abolished.

Motion was made by Mauro, seconded by Oakes to accept the Amendment.

Roll Call: Broughton, Giglio, Mauro and Oakes; all ayes. Carried.

Local Law 3-2021
Solar Energy

1. Authority

This Solar Energy Local Law is adopted pursuant to sections 261-263 of the Town Law of the State of New York and Section 20 of the Municipal Home Rule Law of the State of New York, which authorize the Town to adopt zoning provisions that advance and protect the health, safety and welfare of the community, and, in accordance with the Town law of New York State, "to make provision for, so far as conditions may permit, the accommodation of solar energy systems and equipment and access to sunlight necessary therefore."

2. Statement of Purpose

- A. This Solar Energy Local Law is adopted to advance and protect the public health, safety, and welfare of the Town by creating regulations for the installation and use of solar energy generating systems and equipment, with the following objectives:
 - 1) To take advantage of a safe, abundant, renewable and non-polluting energy resource;
 - 2) To decrease the cost of electricity to the owners of residential and commercial properties, including single-family houses;

- 3) To increase employment and business development in the Town, to the extent reasonably practical, by furthering the installation of Solar Energy Systems;
- 4) To mitigate the impacts of Solar Energy Systems on environmental resources such as important agricultural lands, forests, wildlife and other protected resources, and;
- 5) To create synergy between solar and other stated goals of the community pursuant to its Comprehensive Plan, such as urban/downtown revitalization, vacant land management, creating a walkable, healthy community, etc.

3. Definitions

BUILDING-INTEGRATED SOLAR ENERGY SYSTEM: A combination of Solar Panels and Solar Energy Equipment integrated into any building envelope system such as vertical facades, semitransparent skylight systems, roofing materials, or shading over windows, which produce electricity for onsite consumption.

FARMLAND OF STATEWIDE IMPORTANCE: Land, designated as "Farmland of Statewide Importance" in the U.S. Department of Agriculture Natural Resources Conservation Service (NRCS)'s Soil Survey Geographic (SSURGO) Database on Web Soil Survey, that is of state wide importance for the production of food, feed, fiber, forage, and oilseed crops as determined by the appropriate state agency or agencies. Farmland of Statewide Importance may include tracts of land that have been designated for agriculture by state law.

GLARE: The effect by reflections of light with intensity sufficient as determined in a commercially reasonable manner to cause annoyance, discomfort, or loss in visual performance and visibility in any material respects.

GROUND-MOUNTED SOLAR ENERGY SYSTEM: A Solar Energy System that is anchored to the ground via a pole or other mounting system, detached from any other structure, that generates electricity for onsite or offsite consumption.

NATIVE PERENNIAL VEGETATION: native wildflowers, forbs, and grasses that serve as habitat, forage, and migratory way stations for pollinators and shall not include any prohibited or regulated invasive species as determined by the New York State Department of Environmental Conservation.

POLLINATOR: bees, birds, bats, and other insects or wildlife that pollinate flowering plants, and includes both wild and managed insects.

PRIME FARMLAND: Land, designated as "Prime Farmland" in the U.S. Department of Agriculture Natural Resources Conservation Service (NRCS)'s Soil Survey Geographic (SSURGO) Database on Web Soil Survey, that has the best combination of physical and chemical characteristics for producing food, feed, forage, fiber, and oilseed crops and is also available for these land uses.

ROOF-MOUNTED SOLAR ENERGY SYSTEM: A Solar Energy System located on the roof of any legally permitted building or structure that produces electricity for onsite or offsite consumption.

SOLAR ACCESS: Space open to the sun and clear of overhangs or shade so as to permit the use of active and/or passive Solar Energy Systems on individual properties.

SOLAR ENERGY EQUIPMENT: Electrical material, hardware, inverters, conduit, storage devices, or other electrical and photovoltaic equipment associated with the production of electricity.

SOLAR ENERGY SYSTEM: The components and subsystems required to convert solar energy into electric energy suitable for use. The term includes, but is not limited to, Solar Panels and Solar Energy

Equipment. The area of a Solar Energy System includes all the land inside the perimeter of the Solar Energy System, which extends to any interconnection equipment. A Solar Energy System is classified as a Tier 1, Tier 2, or Tier 3 Solar Energy System as follows.

A. Tier 1 Solar Energy Systems include the following:

- a. Roof-Mounted Solar Energy Systems
- b. Building-Integrated Solar Energy Systems

B. Tier 2 Solar Energy Systems include Ground-Mounted Solar Energy Systems that generate up to [110] % of the electricity consumed on the site over the previous [12] months, either capacity-based with system capacity up to 25 kW AC or physical-size based with a total surface area of all solar panels on the lot of up to 4,000 square feet.

C. Tier 3 Solar Energy Systems are systems that are not included in the list for Tier 1 and Tier 2 Solar Energy Systems.

SOLAR PANEL: A photovoltaic device capable of collecting and converting solar energy into electricity.

STORAGE BATTERY: A device that stores energy and makes it available in an electrical form.

4. Applicability

A. The requirements of this Local Law shall apply to all Solar Energy Systems permitted, installed, or modified in the Town after the effective date of this Local Law, excluding general maintenance and repair.

B. Solar Energy Systems constructed or installed prior to the effective date of this Local Law, or any open applications with fees paid shall not be required to meet the requirements of this Local Law.

C. Modifications to an existing Solar Energy System that increase the Solar Energy System area by more than 5% of the original area of the Solar Energy System (exclusive of moving any fencing) shall be subject to this Local Law.

D. All Solar Energy Systems shall be designed, erected, and installed in accordance with all applicable codes, regulations, and industry standards as referenced in the NYS Uniform Fire Prevention and Building Code ("Building Code"), the NYS Energy Conservation Code ("Energy Code"), and the applicable Town of Hornellsville Zoning Ordinance.

5. General Requirements

A. A Building permit, issued by the town's code enforcement officer shall be required for installation of all Solar Energy Systems.

B. Issuance of permits and approvals by the Planning Board shall include review pursuant to the State Environmental Quality Review Act.

6. Permitting Requirements for Tier 1 Solar Energy Systems

Tier 1 Solar Energy Systems shall be permitted in all zoning districts and shall be exempt from site plan review under the local zoning code or other land use regulation, subject to the following conditions for each type of Solar Energy Systems; refer to General Requirements Section 5A (above)

A. Roof-Mounted Solar Energy Systems

1) Roof-Mounted Solar Energy Systems shall incorporate, when feasible, the following design requirements:

- a. Solar Panels on pitched roofs shall be mounted with a maximum distance of 8

inches between the roof surface and the highest edge of the system.

b. Solar Panels on pitched roofs shall be installed parallel to the roof surface on which they are mounted or attached.

c. Solar Panels on pitched roofs shall not extend higher than the highest point of the roof surface on which they are mounted or attached.

d. Solar Panels on flat roofs shall not extend above the top of the surrounding parapet, or more than 24 inches above the flat surface of the roof, whichever is higher.

2) Glare: All Solar Panels shall have anti-reflective coating(s).

3) Height: All roof mounted Solar Energy Systems shall be subject to the maximum height regulations specified for principal and accessory buildings within the underlying zoning district as stated in Section 4.03 Schedule B of the Town Zoning ordinances.

B. Building-Integrated Solar Energy Systems shall be shown on the plans submitted for the building permit application for the building containing the system.

7. Permitting Requirements for Tier 2 Solar Energy Systems

Tier 2 Solar Energy Systems shall be permitted in all zoning districts as accessory structures and shall be exempt from site plan review under the local zoning code or other land use regulations, subject to the following conditions; refer to General Requirements Section 5A. If requirements are not met, applicant will be referred to the Planning Board for Site Plan Review.

A. Glare: All Solar Panels shall have anti-reflective coating(s).

B. Setbacks: Tier 2 Solar Energy Systems shall be subject to the setback regulations specified for the accessory structures within the underlying zoning district. All Ground-Mounted Solar Energy Systems shall only be installed in the side or rear yards in residential districts.

C. Height: Tier 2 Solar Energy Systems shall comply with the height limitations in Appendix 2.

D. Screening and Visibility.

1) All Tier 2 Solar Energy Systems shall have views minimized from adjacent properties to the extent reasonably practicable.

2) Solar Energy Equipment shall be located in a manner to reasonably avoid and/or minimize blockage of views from surrounding properties and shading of property to the north, while still providing adequate solar access.

E. Lot Size: Tier 2 Solar Energy Systems shall comply with the existing lot size requirement specified for accessory structures within the underlying zoning district.

8. Permitting requirements for Tier 3 Solar Energy Systems

Tier 3 Solar Energy Systems are permitted through the issuance of a special use permit within the Town of Hornellsville's local zoning described in Article 700 of the Town's Zoning District Regulations, and subject to site plan application requirements set forth in this Section.

A. Applications for the installation of Tier 3 Solar Energy System shall be:

1) Submitted to the Code Enforcement Officer for submission to the Planning Board to be

reviewed for completeness. Applicants shall be advised within 10 business days of the completeness of their application by the Planning Board.

2) Subject to Town of Hornellsville Zoning Ordinance Section 9 Application Procedure

B. Underground Requirements. All on-site utility lines shall be placed underground to the extent feasible and as permitted by the serving utility, with the exception of the main service connection at the utility company right-of-way and any new interconnection equipment, including without limitation any poles, with new easements and right-of-way.

C. Vehicular Paths. Vehicular paths within the site shall be designed to minimize the extent of impervious materials and soil compaction.

D. Signage.

1) No signage or graphic content shall be displayed on the Solar Energy Systems except the manufacturer's name, equipment specification information, safety information, and 24-hour emergency contact information. Said information shall be depicted within an area no more than 8 square feet.

2) As required by National Electric Code (NEC), disconnect and other emergency shutoff information shall be clearly displayed on a light reflective surface. A clearly visible warning sign concerning voltage shall be placed at the base of all pad-mounted transformers and substations.

E. Glare. All Solar Panels shall have anti-reflective coating(s).

F. Lighting. Lighting of the Solar Energy Systems shall be limited to that minimally required for safety and operational purposes and shall be reasonably shielded and downcast from abutting properties.

G. Tree-cutting. Removal of existing trees larger than 6 inches in diameter should be minimized to the extent possible.

H. Decommissioning.

1) Solar Energy Systems that have been abandoned and/or not producing electricity for a period of 1 year shall be removed at the Owner and/or Operators expense, which at the Owner's option may come from any security made with the Town as set forth in Section 10(b) herein.

2) A decommissioning plan (see Appendix 3) signed by the owner and/or operator of the Solar Energy System shall be submitted by the applicant, addressing the following:

a. The cost of removing the Solar Energy System.

b. The time required to decommission and remove the Solar Energy System and any ancillary structures.

c. The time required to repair any damage caused to the property by the installation and removal of the Solar Energy System.

3) Security.

a. The deposit, executions, or filing with the Town Clerk of cash, bond, or other form of security reasonably acceptable to the Town attorney and/or engineer, shall be in an amount sufficient to ensure the good faith performance of the terms and conditions of the permit issued pursuant hereto and to provide for the removal and restorations of the site subsequent to removal. (See Appendix 4)

b. In the event of default upon performance of such conditions, after proper notice and expiration of any cure periods, the cash deposit, bond, or security shall be forfeited to the Town, which shall be entitled to maintain an action thereon. The cash deposit, bond, or

security shall remain in full force and effect until restoration of the property as set forth in the decommissioning plan is completed.

c. In the event of default or abandonment of the Solar Energy System, the system shall be decommissioned as set forth in Section 10(b) and 10(c) herein.

I. Site plan application. For any Solar Energy system requiring a Special Use Permit, site plan approval shall be required. Any site plan application shall include the following information:

- 1) Property lines and physical features, including roads, for the project site
- 2) Proposed changes to the landscape of the site, grading, vegetation clearing and planting, exterior lighting, and screening vegetation or structures
- 3) A one- or three-line electrical diagram detailing the Solar Energy System layout, solar collector installation, associated components, and electrical interconnection methods, with all National Electrical Code compliant disconnects and over current devices.
- 4) A preliminary equipment specification sheet that documents all proposed solar panels, significant components, mounting systems, and inverters that are to be installed. A final equipment specification sheet shall be submitted prior to the issuance of building permit.
- 5) Name, address, and contact information of proposed or potential system installer and the owner and/or operator of the Solar Energy System. Such information of the final system installer shall be submitted prior to the issuance of building permit.
- 6) Name, address, phone number, and signature of the project applicant, as well as all the property owners, demonstrating their consent to the application and the use of the property for the Solar Energy System.
- 7) Zoning district designation for the parcel(s) of land comprising the project site.
- 8) Property Operation and Maintenance Plan. Such plan shall describe continuing photovoltaic maintenance and property upkeep, such as mowing and trimming.
- 9) Erosion and sediment control and storm water management plans prepared to New York State Department of Environmental Conservation standards, if applicable, and to such standards as may be established by the Planning Board.
- 10) Prior to the issuance of the building permit or final approval by the Planning Board, but not required as part of the application, engineering documents must be signed and sealed by a New York State (NYS) Licensed Professional Engineer or NYS Registered Architect.

J. Special Use Permit Standards.

- 1) Lot size
 - a. The property on which the Tier 3 Solar Energy System is placed shall meet the lot size requirements in Appendix 1.
- 2) Setbacks
 - a. The Tier 3 Solar Energy Systems shall meet the setback requirements (Section 4.03 Schedule B -Town of Hornellsville Zoning Ordinance)
- 3) Height

a. The Tier 3 Solar Energy Systems shall comply with the height limitations in Appendix 2 depending on the underlying zoning district.

4) Lot coverage

a. The following components of a Tier 3 Solar Energy System shall be considered included in the calculations for lot coverage requirements:

I. Foundation systems, typically consisting of driven piles or monopoles or helical screws with or without small concrete collars.

II. All mechanical equipment of the Solar Energy System, including any pad mounted structure for batteries, switchboard, transformers, or storage cells.

III. Paved access roads servicing the Solar Energy System; per the Highway Superintendent.

b. Lot coverage of the Solar Energy System, as defined above, shall not exceed the maximum lot coverage requirement of the underlying zoning district.

5) Fencing Requirements. All mechanical equipment, including any structure for storage batteries, shall be enclosed by a 7-foot-high fence, as required by NEC, with a self-locking gate to prevent unauthorized access.

6) Screening and Visibility.

a. Solar Energy Systems smaller than 10 acres shall have views minimized from adjacent properties to the extent reasonably practicable using architectural features, earth berms, landscaping, or other screening methods that will harmonize with the character of the property and surrounding area.

b. Solar Energy Systems larger than 10 acres shall be required to:

I. Conduct a visual assessment of the visual impacts of the Solar Energy System on public roadways and adjacent properties. At a minimum, a line-of-sight profile analysis shall be provided. Depending upon the scope and potential significance of the visual impacts, additional impact analyses, including for example a digital viewshed report, may be required to be submitted by the applicant.

II. Submit a screening & landscaping plan to show adequate measures to screen through landscaping, grading, or other means so that views of Solar Panels and Solar Energy Equipment shall be minimized as reasonably practical from public roadways and adjacent properties to the extent feasible.

i. The screening & landscaping plan shall specify the locations, elevations, height, plant species, and/or materials that will comprise the structures, landscaping, and/or grading used to screen and/or mitigate any adverse aesthetic effects of the system, following the applicable rules and standards established by the Town.

7) Agricultural Resources. For projects located on agricultural lands:

1) Tier 3 Solar Energy System owners shall develop, implement, and maintain native vegetation to the extent practicable pursuant to a vegetation management plan by providing native perennial vegetation and foraging habitat beneficial to game birds,

songbirds, and pollinators. To the extent practicable, when establishing perennial vegetation and beneficial foraging habitat, the owners shall use native plant species and seed mixes.

K. Ownership Changes. If the owner or operator of the Solar Energy System changes or the owner of the property changes, the special use permit shall remain in effect, provided that the successor owner or operator assumes in writing all of the obligations of the special use permit, site plan approval, and decommissioning plan. A new owner or operator of the Solar Energy System shall notify the zoning enforcement officer of such change in ownership or operator within 30 days of the ownership change.

9. Safety

A. Solar Energy Systems and Solar Energy Equipment shall be certified under the applicable electrical and/or building codes as required.

B. Solar Energy Systems shall be maintained in good working order and in accordance with industry standards. Site access shall be maintained, including snow removal at a level acceptable to the local fire department and, if the Tier 3 Solar Energy System is located in an ambulance district, the local ambulance corps.

C. If Storage Batteries are included as part of the Solar Energy System, they shall meet the requirements of any applicable fire prevention and building code when in use and, when no longer used, shall be disposed of in accordance with the laws and regulations of the Town and any applicable federal, state, or county laws or regulations.

10. Permit Time Frame and Abandonment

A. The Special Use Permit and site plan approval for a Solar Energy System shall be valid for a period of 12 months, provided that a building permit is issued for construction or construction is commenced. In the event construction is not completed in accordance with the final site plan, as may have been amended and approved, as required by the Planning Board, within 12 months after approval, the applicant or the Town may extend the time to complete construction for 180 days. If the owner and/or operator fail to perform substantial construction after 24 months, the approvals shall expire. Town of Hornellsville Zoning Ordinance III Section 9.06(E)(1)

B. Upon cessation of electricity generation of a Solar Energy System on a continuous basis for 12 months, the Town may notify and instruct the owner and/or operator of the Solar Energy System to implement the decommissioning plan. The decommissioning plan must be completed within 360 days of notification.

C. If the owner and/or operator fails to comply with decommissioning upon any abandonment, the Town may, at its discretion, utilize the bond and/or security for the removal of the Solar Energy System and restoration of the site in accordance with the decommissioning plan.

11. Enforcement

Any violation of this Solar Energy Law shall be subject to the same enforcement requirements, including the civil and criminal penalties, provided for in the zoning or land use regulations of Town.

12. Severability

The invalidity or unenforceability of any section, subsection, paragraph, sentence, clause, provision, or phrase of the aforementioned sections, as declared by the valid judgment of any court of competent jurisdiction to be unconstitutional, shall not affect the validity or enforceability of any other section, subsection, paragraph, sentence, clause, provision, or phrase, which shall remain in full force and effect.

APPENDIX 1: LOT SIZE REQUIREMENTS

The following table displays the size requirements of the lot for Ground-Mounted Solar Energy Systems to be permitted.

Table 1: Lot Size Requirements

Zoning District	Tier 3 Solar Energy Systems
R-1: Single Family Residential	--
C-1: Local Commercial	≥ 5 acres
C-2: Highway Commercial	≥ 5 acres
I-1: Light Industrial	≥ 5 acres
I-2: Heavy Industrial	--
C-F: Community Facilities	--
A-F: Agricultural-Forestry	≥ 5 acres

Key:
--: Not Allowed

APPENDIX 2: HEIGHT REQUIREMENTS

The following table displays height requirements for each type of Solar Energy Systems. The height of systems will be measured from the highest natural grade below each solar panel.

Table 3: Height Requirements

Zoning District	Tier 1 Roof-Mounted	Tier 2	Tier3
R-1: Single Family Residential	2' above roof	10'	--
C-1: Local Commercial	2' above roof	10'	20'
C-2: Highway Commercial	2' above roof	10'	20'
I-1: Light Industrial	4' above roof	15'	20'
I-2: Heavy Industrial	4' above roof	15'	--
C-F: Community Facilities	4' above roof	15'	--
A-F: Agricultural-Forestry	2' above roof	15'	20'

Key:
--: Not Allowed

APPENDIX 3: EXAMPLE DECOMMISSIONING PLAN

Date: [Date]

Decommissioning Plan for [Solar Project Name], located at: [Solar Project Address]

Prepared and Submitted by [Solar Developer Name], the owner of [Solar Farm Name]

As required by Town, [Solar Developer Name] presents this decommissioning plan for [Solar Project Name] (the "Facility").

Decommissioning will occur as a result of any of the following conditions:

- 1. The land lease, if any, ends
- 2. The system does not produce power for 12 months
- 3. The system is damaged and will not be repaired or replaced

The owner of the Facility, as provided for in its lease with the landowner, shall restore the property to its condition as it existed before the Facility was installed, pursuant to which may include the following:

- 1. Removal of all operator-owned equipment, concrete, conduits, structures, fencing, and foundations to a depth of 36 inches below the soil surface.
- 2. Removal of any solid and hazardous waste caused by the Facility in accordance with local, state and federal waste disposal regulations.
- 3. Removal of all graveled areas and access roads unless the landowner requests in writing for it to remain.

All said removal and decommissioning shall occur within 12 months of the Facility ceasing to produce power for sale.

The owner of the Facility, currently [Solar Developer Name], is responsible for this decommissioning.

Facility Owner Signature: _____ Date: _____

APPENDIX 4: SECURITY BONDS

The amount of the bond or security shall be 125% of the cost of removal, as determined by the Town Engineer, of the Tier 3 Solar Energy System and restoration of the property, with an escalator of 2% annually for the life of the Solar Energy System.

Motion was made by Oakes, seconded by Giglio to accept this Law.

Roll Call: Broughton, Giglio, Mauro and Oakes; all ayes. Carried.

CORRESPONDENCE – None

PUBLIC

Tim Bailey expressed his appreciation for the Town’s donation to Summerfest this year and hopes to make it bigger and better next year. They are currently working on their Not for Profit.

ADJOURNMENT

With no further business, on a motion made by Oakes, seconded by Giglio, the meeting was adjourned at 8:13 p.m.

Roll Call: Broughton, Giglio, Mauro and Oakes; all ayes. Carried.

Respectfully Submitted,

Jessica L. LaFrance
Town Clerk
August 30, 2021
